Hello Steve and thank you for requesting feedback in order to improve your firm. I have put a lot of thought into my numbered answer and as much as I would love to give you a better rating, I am reluctant to do so with all honesty. As you know, I put a lot of faith in your organization and after carefully listening to all the facts, I made the decision to move forward with Smith-Anglin. My first planner left your firm and in my opinion, did not look after MY best interest. Then my current planner was selected and it has been a bit of a rocky road. As much as I would like to say I will continue using your firm, I honestly can not at this time. Things have improved and I hope they will continue to improve but I am still reluctant to ask questions based on my past experiences. I really hope this changes because to me a great planner breaks down the complicated details into understandable terms that builds confidence, trust and more importantly a great reputation. I am really hoping that this will evolve to that point but right now today, we are not there yet. My first experience with your tax personnel was exceptional! Everyone in that department was very knowledgeable, helpful and professional. It was a very eniovable experience. I hope I can mark a 10 on your next feedback requ

I hope I can mark a 10 on your next feedback request! Thanks for taking the time 6 and effort to listen to your customers concerns.

10 Peace of mind that my portfolio is being well managed.

| | I don't know what you can do to approve. For us, SmithAnglin has been wonderful. Best of all is our rapport with our advisor Dan Drummond. My wife and I feel comfortable bringing anything to his attention and though we've never met him faceto-face, we think of him as not only an advisor but a personal friend. Everyone else we've had contact with at SmithAnglin has also been wonderful. Submitting documents is fast and easy and we always get immediate attention to whatever we | | | | |

Since the inception of my account with Smith Anglin, I have a negative rate of return. The biggest selling point that Weston made when he was soliciting my business was how good Smith Anglin was at wealth preservation. If I had invested in S&P 500 index over the same period, my return would have been 27.95%.

When the market crashed with COVID, Smith Anglin was slow to move to cash to preserve value and when tech stocks like AAPL and NFLX boomed, we stayed in cash.

I know that this is a challenging time, but it is for these challenging times that I am paying you as professionals to make strong financial decisions.
